OKOLONA MISS., JUN 1, 1916  
ANNOUNCEMENTS  
For Congress  
C. E. FRANKLIN  
WILLIAM C. WARD  
T. U. SISSON

The first district of this county  
is to have come more good roads.  
The additional bond issue elec-  
tion yesterday carried by a safe  
majority. It is hope that Hous-  
ton will get connected up with  
our system of good roads and  
get on the good roads map.

Chas. C. Elliott, of San Fran-  
cisco, a former Mississippian, and  
a leader in the Mississippi Soci-  
ety of California, is in his native state  
to arouse our people to the nec-  
essity of paying for the building  
the Commission had erected at the  
exposition in his city.

Of course there is no legal ob-  
ligation on the part of the state  
to pay this debt, but there is a  
strong moral obligation. The  
commission had secured pledges  
from different counties in misap-  
plications of funds (or almost enough)  
to construct the building. They  
could not know that a world war  
was coming on and that these  
promises would not be met by  
the town and counties. On the  
faith of the pledges, they had  
the building erected and it was  
an honor to the state. But, alas,  
when the time came to pay  
cotton had gone to bottom prices  
and there was little to pay with  
and very few of the promises  
were met. So the commission  
could not pay and the debt still  
stands as a charge against the  
state as a whole.

The question is, what are we  
going to do about it? Are we  
willing to derive a benefit from  
this advertising and not meet  
the bill? We suggest that a pub-  
lic subscription to be started and  
the money raise that will not  
stare every one in the face who  
attempt to secure emigrants or  
capital for the state. Besides, it  
is but common honesty to pay  
this debt in some way.

**Press Convention**  
The Mississippi Press Associa-  
tion was in session in Clarks-  
dale three days of last week with  
an attendance said to be the  
largest in the history of the  
organization. While many pap-  
ers were not represented, there  
were members from every sec-  
tion of the state, and all seem-  
ed bent on having a good time and  
most of them succeeded.  
Clarksdale had made promise  
to the effect that all who would  
come would be welcome to the  
"best city in the state" and they  
made good that promise. The  
people of the delta make money  
easily and spend it lavishly.  
They know how to make a visit:  
feel at home and enjoy any oc-  
casion among them. So full did  
they crowd one event with  
another that the Association  
found it difficult to transact the  
business in hand and keep up  
with the many features prepared  
for their enjoyment, and catch  
an occasional nap.

Many members of the press  
were given their first opportunity  
to see the delta and learn at  
first hands just what this section  
means to the state as a whole -  
to see what the levies make pos-  
sible in the way of reclaiming a  
section, as large as a small state,  
so fertile that it only needs to be  
tickled with a hoe to make it  
smile with a harvest. We feel  
sure every member went away  
with a kindly feeling for the  
people and the city that so royally  
entertained them, and with a  
better opinion of the section as  
a whole.

**Deafness Cannot Be Cured**  
by local applications, as they cannot reach  
the diseased portion of the ear. There is  
only one way to cure deafness, and that is  
by constitutional remedies. Deafness is  
caused by an inflamed condition of the mu-  
cous lining of the Eustachian Tube. When  
this tube is inflamed you have a running  
ear or imperfect hearing, and when it is  
entirely closed, Deafness is the result, and  
unless the inflammation can be taken out  
and this tube restored to its normal condi-  
tion, hearing will be destroyed forever; nine  
cases out of ten are caused by Catarrh,  
which is nothing but an inflamed condition  
of the mucous surfaces.  
We will give One Hundred Dollars for any  
case of Deafness (caused by catarrh) that  
cannot be cured by Hall's Catarrh Cure.  
Send for circulars, free.  
F. J. CHENEY & CO., Toledo, Ohio.  
Sold by Druggists, etc.  
Take Hall's Family Pills for Constipation.

**Using Peat in Germany.**  
Peat coke in Germany is proving  
serviceable in many ways. It is not  
only valuable for generating elec-  
tricity at moorland stations, but is  
much used by blacksmiths and for var-  
ious metallurgical purposes, espe-  
cially as a substitute for charcoal  
in producing high-grade iron. A new  
turbo-cooking plant at Elizabeth-Fehn,  
Oldenburg, converts 30 tons of peat  
into nine of coke, with gas and tar  
as by-products. Specially-designed  
ovens are used and the gas generated  
is made to heat the retorts and to  
generate electric current to drive  
the peat dredging machines. The  
tar yields creosote oil, gas oil, par-  
affin, sulphuric acid and ammonia.

## ALL WRONG

The Mistake is Made by Many Oko-  
lona Citizens.  
Look for the cause of backache.  
To be cured you must know the  
cause.  
If it's weak kidneys you must set  
the kidneys working right.  
An Okolona resident tells you how.  
J. W. Sanders, carpenter, Washing-  
ton & School Sts., Okolona, says: "I  
was bothered by backache and sharp  
pains across my kidneys. My back  
was so weak and lame, it hurt me to  
lift anything. I finally used Doan's  
Kidney Pills and a couple of boxes  
cured me. From that day to this, a  
lapse of five years, I have worked  
hard and have never felt the least  
trouble with my back and kidneys."  
Price 50c, at all dealers. Don't  
simply ask for a kidney remedy—get  
Doan's Kidney Pills—the same that  
cured Mr. Sanders. Foster-Milburn

**Appropriated Her Tea.**  
The most embarrassing moment of  
my life was when touring in Ireland  
I stepped from our train on to the  
platform at Athlone and saw a boy  
running along the platform with a cup  
of tea and bread and butter. "How  
much is it?" says it. "Sixpence," he  
says.  
I was devouring it ravenously when  
a lady with two children thrust her  
head out of the next compartment.  
Looking at me angrily and yet good  
naturedly, she said: "That's a mean  
Yankee trick. I ordered that at the  
station above to meet me here."—Ex-

## Calomel Today, Sick Tomorrow

Dose of nasty calomel makes you  
sick and you lose a  
day's work  
Calomel salivates! It's mercury  
calomel acts like dynamite on a slug  
fish liver. When calomel comes into  
contact with sour bile it crashes into  
it, causing cramping and nausea.  
If you feel bilious, headachy, con-  
stipated and all knocked out, just go  
to your druggist and get a 50 cen  
bottle of Dodson's Liver Tone, which  
is a harmless vegetable substitute for  
dangerous calomel. Take a spoonful  
and if it doesn't start your liver and  
straighten you up better and quicker  
than nasty calomel and without mak-  
ing you sick, you just go back and  
get your money.  
If you take calomel today you'll be  
sick and nauseated tomorrow; be-  
sides, it may salivate you, while if you  
take Dodson's Liver Tone you will  
wake up feeling great, full of ambition  
and ready for work or play. It's  
armless, pleasant and safe to give to  
children; they like it. adv.

## GIRL A SKILLED ENGINEER

Young Englishwoman Said to Show  
Remarkable Proficiency in Pro-  
fession She Has Taken Up.  
One of the most remarkable things  
in the replacing of men's labor by  
women's which is going on today is  
the great popularity which mechan-  
ical work seems to be winning for  
itself among women. From Ireland  
comes the account of a young girl  
just twenty years' old, who is doing  
the work of a skilled electrical en-  
gineer. She is Miss May Traill, the  
daughter of Mr. William T. Traill,  
C. E., a well-known engineer, who  
was the constructor of one of the  
first electric tramways—the Giants'  
Causeway and Portrush Electric  
tramway—which was opened in 1883.  
Miss Traill, who studied horticult-  
ure at Studley college, Warwick-  
shire, exhibited her gift for mechan-  
ics while still a student, and as a re-  
sult was made chauffeur of the col-  
lege motor lorry. When this was  
purchased by the government she  
drove it from Studley to London,  
and subsequently was placed on the  
staff of the college in full charge of  
the electric light and power installa-  
tion. She has set free a man who is  
now making torpedoes.

FINDS \$200 IN OLD BOOK.

Mrs. John Westall of this city is a  
great believer in "Pilgrim's Prog-  
ress." Such was not always the case,  
however, as her copy of Bunyan's fa-  
mous allegory had lain around the  
family domicile for some years un-  
touched. Recently Mrs. Westall  
picked up the book and, in reading  
through portions of it, found two  
\$100 bills. It appears the Westalls  
lived in Plumas county some years  
ago, and when the head of the fam-  
ily returned late from selling a lot  
of steers he slipped the \$200 into  
the book and went to bed. The  
money slipped his mind and only  
turned up when Mrs. Westall turned  
to Bunyan.—Live Oak (Cal.) Dis-  
patch, Los Angeles Times.

## NO ALCOHOL FOR WOMEN.

The minister of the interior has is-  
sued new regulations for the sale of  
alcohol throughout France.  
The regulations forbid the sale of  
alcoholic drinks before 11 o'clock in  
the morning and the sale to women  
and minors under eighteen is forbid-  
den entirely.  
The minister's circular allows the  
prefects to use a certain amount of  
discretion in applying the regula-  
tions. Thus women are allowed to  
use alcohol at hours at which it may  
be considered as an accessory to food.  
They are still able to enjoy liquors  
with coffee after dinner, a privilege  
which they had been in danger of  
losing according to earlier versions  
of the new regulations.

## BREAKING IT GENTLY.

"You apply for alimony of \$64  
per month. How much does your  
husband earn?"  
"Sixty-five."  
"Dear lady," said the judge gently,  
"the proportion he received when you  
were living together will hardly suf-  
fice for his wants if he has to live  
alone."

## NEEDLE INSTEAD OF HAMMER.

"No, she has never gone out  
much."  
"How do you know?"  
"Why, when she joined our sew-  
ing club she actually expected to do  
some sewing!"

## HIS FAILING.

"He'll never make a great preach-  
er."  
"Why not?"  
"Sure, can't anybody understand  
everything he says?"

## WONDER HOW PAW KNEW?

Little Lemuel—Paw, what's an  
usher?  
Paw—An usher, son, is the man  
who shows people where they mustn't  
sit in church.

**Peculiar Classification.**  
In the census office at Washington  
acts against the law are recorded un-  
der a few main heads, such as mur-  
der, burglary, etc. A lady who was  
working there recently ran across the  
crime, "Banning a blind tiger." After  
a puzzled moment she placed it under  
the list, "Cruelty to Animals."

**Where the Leak Is.**  
"If I had a wife who would do some
